

HAUNTED HOSPITALS

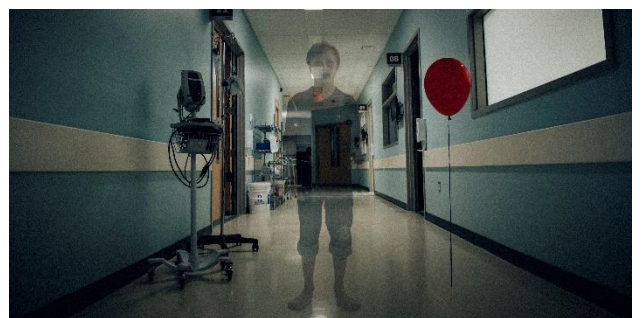

Chilling stories of paranormal activity...

Past patients suspended between this world and the next. Departed medical professionals who insist on overseeing their wards long after death. Spirits roaming corridors to signal unfinished business with their presence.

Haunted Hospitals tells chilling tales of paranormal activity in hospitals, nursing homes, morgues and medical institutions.

These terrifying real-life stories are told from a first-person perspective – by the medical professionals and patients who experienced them. These are not random encounters. They are part of paranormal patterns experienced by hospital staff across the world.

A Bristow Global Media Inc. Production.
